Rommiel John T. Francisco

Full Stack Web Developer

9 years of work experience in the areas of Software Development, Digital Marketing and Quality Assurance Testing. My experience in these fields has provided me with innovative and technical skills necessary to successfully provide businesses with multifaceted technical solutions across a wide range of software platforms. To further nourish my competencies, I've developed a skill in Full-Stack Web Development with a proven ability to build interactive and user-centered websites and website designs.

Work History
